GOING FORWARD...

We keep offering the greatest value to our customers

We continue innovating in order to keep solving the problems our customers have and increase the value of our services

Innovations	Comments
New SP MVNO Platform (Q1 2023) 	<ul style="list-style-type: none">The new SP MVNO platform allow us to get a greater percentage of the whole value chain.We will be able to offer our customers premium and tailor-made products with added-value services.We will increase the margin of our products and open a new customer base since of the opportunity to personalization with a branding-license model for enterprises.
Parlem Energia (Q2 2023) 	<ul style="list-style-type: none">The strategy behind Parlem Energia resides on the cross-selling opportunity.This allows us to grow our LTV through the increase in ARPU and the decrease of churn.White Brand reseller model avoids financial risks
Other innovations (2023-2024) 	<ul style="list-style-type: none">The global IoT market is projected to grow at a CAGR of 26.4% during 2022-2029.A layer of telecommunications is needed for this type of products to work.We can leverage our position to increase our ARPU and to enter into a new market segment.

During 2023 we will improve our +EBITDA by cutting unnecessary costs while increasing efficiency, margin and wallet share

Inefficiencies from our 2021-22 expansion plan have been identified and are being addressed to ensure Parlem's profitability

	Department	Improvements	Achievements
